

Equity Funding: \$8M  
Headquarters: Oakland, CA  
Website: [cryptomove.com](http://cryptomove.com)

**CryptoMove** is a cloud-based moving target data defense software platform that splits data into fragments, encrypts and re-encrypts the fragments, and applies proprietary random movement algorithms to spread the data across a diverse landscape of devices, clouds and storage layers. CryptoMove's approach to data protection reverses the advantage that attackers have over traditional data at rest encryption technologies and addresses a host of current and emergent threats to encrypted data that are frequently misunderstood.

Equity Funding: \$74.2M  
Headquarters: San Francisco, CA  
Website: [hashicorp.com](http://hashicorp.com)

**HashiCorp** enables organizations to provision, secure, connect, and run any infrastructure for any application. HashiCorp's suite of open source tools including Terraform, Vault, Consul, and Nomad allow developers and security professionals to maintain, provision, and ensure compliance across distributed infrastructure.

Equity Funding: Bootstrapped  
Headquarters: Portland, OR  
Website: [ionchannel.io](http://ionchannel.io)

**Ion Channel** is a software supply-chain risk-management platform to secure enterprise development and operations. Developed for national defense, Ion Channel allows CISOs and engineering teams to automate governance as software is built and automate actions based on live data. Ion Channel runs in CI/CD pipelines and can monitor and deliver updated components to an S3 bucket. Priced on a per-project basis, Ion Channel enables security automation at an accessible price point.

Equity Funding: \$12M  
Headquarters: Menlo Park, CA  
Website: [redlock.io](http://redlock.io)

**RedLock** enables effective cloud threat defense across Amazon Web Services (AWS), Microsoft Azure, and Google Cloud environments and will enable you to ensure compliance, govern security, and enable security operations. The RedLock Cloud 360 platform takes a new AI-driven approach that correlates disparate security datasets including network traffic, user activities, risky configurations, hosts and container vulnerabilities, and threat intelligence, to provide a unified view of risks across fragmented cloud environments.

Equity Funding: \$65.6M  
Headquarters: San Francisco, CA  
Website: [riskiq.com](http://riskiq.com)

**RiskIQ** is the world leader in digital threat management, providing the most comprehensive discovery, intelligence, and mitigation of threats associated with an organization's digital presence. RiskIQ allows enterprises to gain unified insight and control over web, social, and mobile exposures. The platform combines advanced internet data reconnaissance and analytics to expedite investigations, understand attack surfaces, assess risk, and take action against digital threats.

Equity Funding: \$230M  
Headquarters: Redwood City, CA  
Website: [sumologic.com](http://sumologic.com)

**Sumo Logic** is industry's leading, secure, cloud-based service for logs & metrics management for modern apps, providing real-time analytics and insights. Sumo Logic delivers the only cloud-native, real-time machine data analytics platform that provides Continuous Intelligence – insights across build, run and secure disciplines for modern applications.
